2. Computing Club Logo Color: #27378f

3. Assets
Refer to the Assets folder for full list of .png, .psd, assets etc. You can use any of these freely.

4. Icons
Feel free to use icons from https://www.flaticon.com

5. External resources
For external resources, such as image file, psd file, brushes template, shape template, fonts etc., use only those that are available **free for Commercial Use without Attribution**.

6. Soccat usage
You are not allowed to create Soccat images yourself from scratch. The reason is that Soccat's copyright belongs to its creator (Xinni). You are however, free to use any images found under the Soccat folder (those are created by Xinni herself). If you cannot find a suitable Soccat image, contact the Director/Deputy Director of Publicity. We will send a request to Xinni to ask if she has time to create your required Soccat image.
